

women's CLIMATE CONGRESS

Women leading united action on climate change

“As holders of a great and universal desire to look after the young, we raise our voices, confident in the potential of women to lead positive change”

WHY

In the animal world and the human world, parents make sacrifices for their children's safety and security. Today's children are crying out for action to protect the planet.

Let us, who have benefitted from the use of fossil fuels, now work together to make the changes we need to stabilise the climate and transition to a just and regenerative economy.

WHO

We are women of all political persuasions, ages and walks of life. We're inspired by the International Congress of Women who, in 1915, already tired of the death and destruction of war, worked to bring peace through mediation among the warring parties. We are connecting with leaders throughout the country and with other groups in the cities, towns and regions. We are working to protect the Earth and the land we love.

Let's stop the political arguments over the climate and instead collaborate and cooperate.

WHAT

Find us on our website, Facebook or Twitter pages.

- Join the Women's Climate Congress via the 'Join us' form on our website Home page.
- Establish relationships with your elected representatives.
- Make connections with other women in your community and beyond.
- Join our working group to contact politicians, business leaders and others.
- Participate in webinars and join discussions about how to move forward to shape the world we want to see.
